REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is that the prior art does not disclose a semi-rigid barrier sheet having a detachable portion formed therein, wherein the detachable portion sealingly engages a first component of a vehicle door and when the detachable portion is removed from the barrier sheet an opening is defined which accommodates a second component of the vehicle. Nishikawa et al. disclose a semi-rigid barrier sheet having a detachable portion (22,23) formed thereon which sealingly engages a first component (13,12) of a vehicle door. However, the detachable portion of Nishikawa et al. does not form an opening in the barrier sheet which engages a second vehicle component. It would not have been obvious to relocate the detachable portion to another location on the barrier sheet so that when the detachable portion was detached an opening which accommodated a second component was formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
